WHY RAPID RECON?

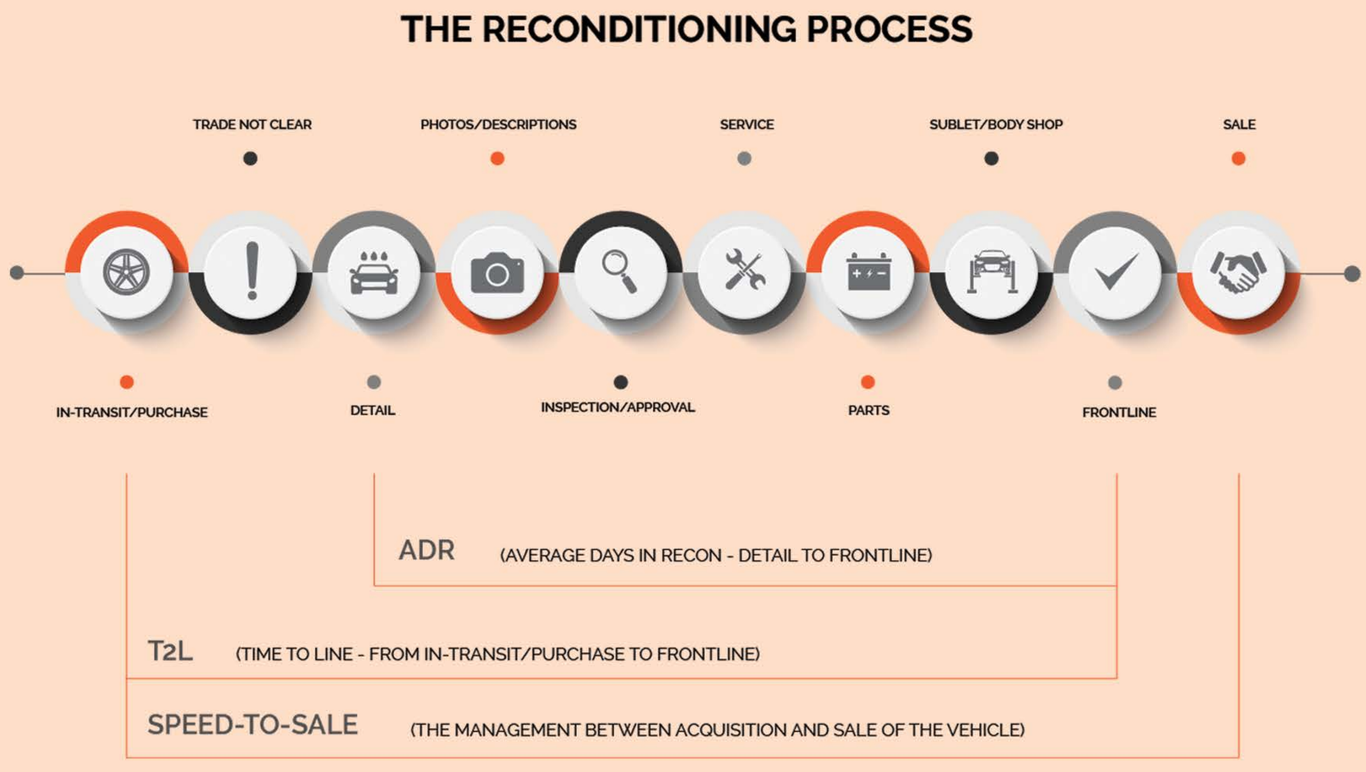
There's a difference in used vehicle management platforms, and what makes Rapid Recon unique is the problems we solve. The software provides dealers the tools to obtain and maintain consistency, accountability, transparency, and harmony between departments. Still, the people of Rapid Recon impact your business by sharing our own experience and the experience of over 2,696 dealers. We recognize that software is a big part of creating standards in your reconditioning methods, but success also takes people and proven processes.

Used car profitability will take a hit when fixed and variable operations can't agree about where internal work fits into the dealership's priorities – or when there's delay in recommending and authorizing repairs. Where there is no accountability to reconditioning and sales efficiency, only one outcome is inevitable: cars can't be sold.

Average days in Reconditioning (ADR) – this is affected by everyone who "touches" the vehicle. ADR measures the reconditioning steps the departments can control.

Time to Line (T2L) – this is the measure of efficiency from vehicle acquisition through ADR to sale-ready status.

Speed to sale – this discipline – this mindset – focuses on eliminating delays, miscommunication and other bottlenecks that impede how fast you can retail a car. Speed to sale isn't one departments or individuals' responsibility, but that of everyone who touches the vehicle, from acquisition through the point of sale.



We put this Buyers Guide together showing the range of productivity and convenience capabilities provided to you Rapid Recon workflow software. Thank you.

Dennis McGinn

WORKFLOW CUSTOMIZATION

Every store runs its reconditioning program differently. The recon process is fluid and everchanging, and we built our software and support programs to accommodate these updates.

Stores can start with a simple workflow and add more 'work items,' or steps as they go - or they may begin with a very robust system and scale back over time.

Need to change a work item? Add a work item? Change the name? Our support staff is ready for these on-the-fly changes. We don't stop working because you don't stop working.

Take a look at 4 sample workflows on the following page.

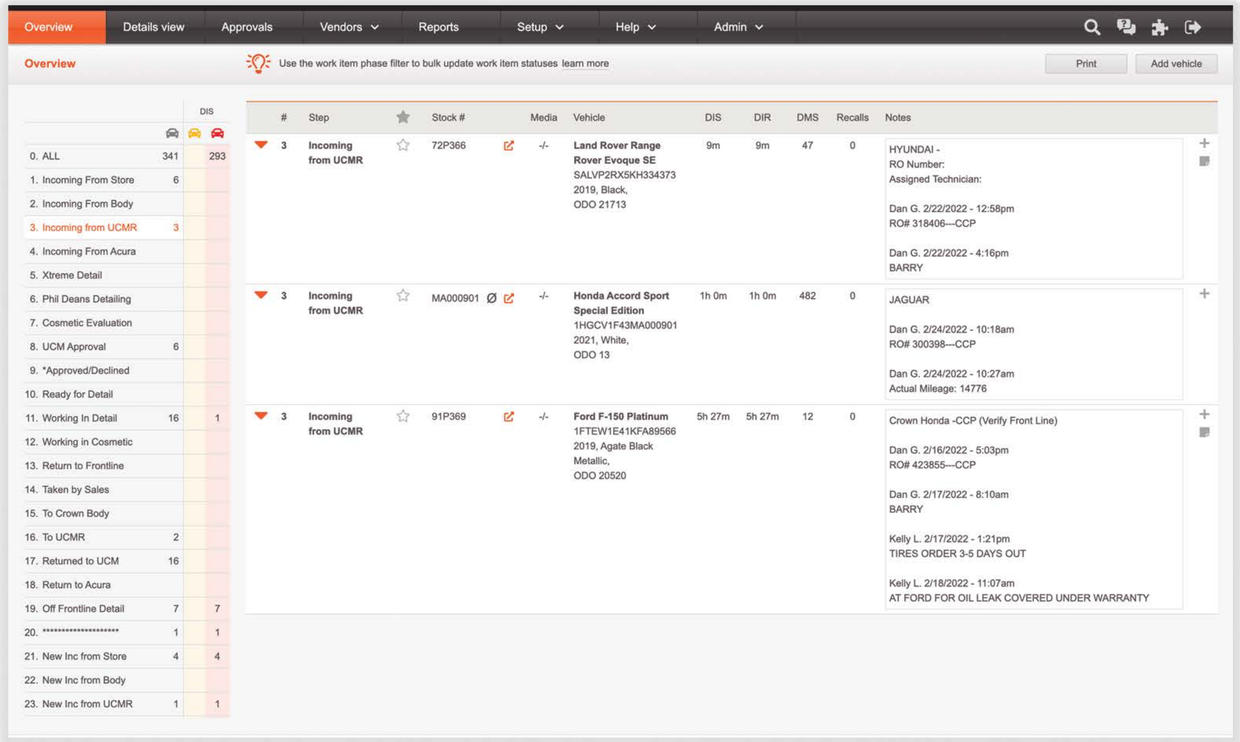
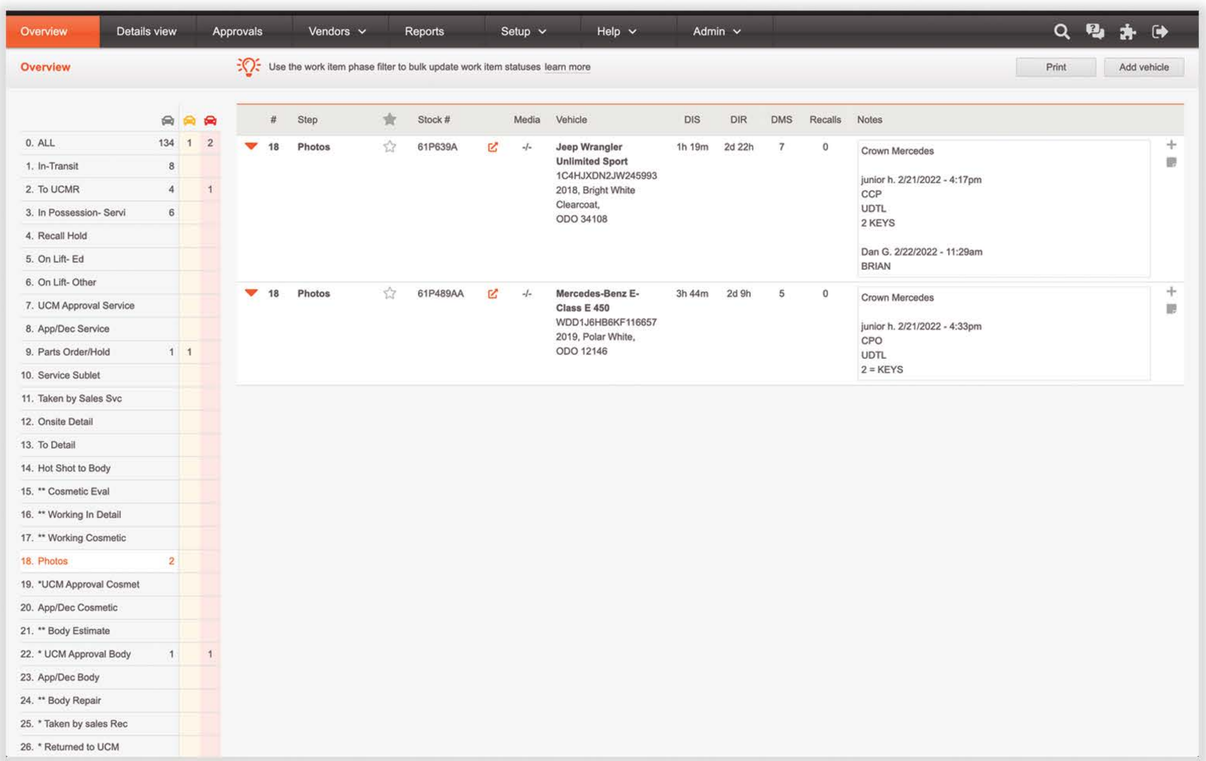
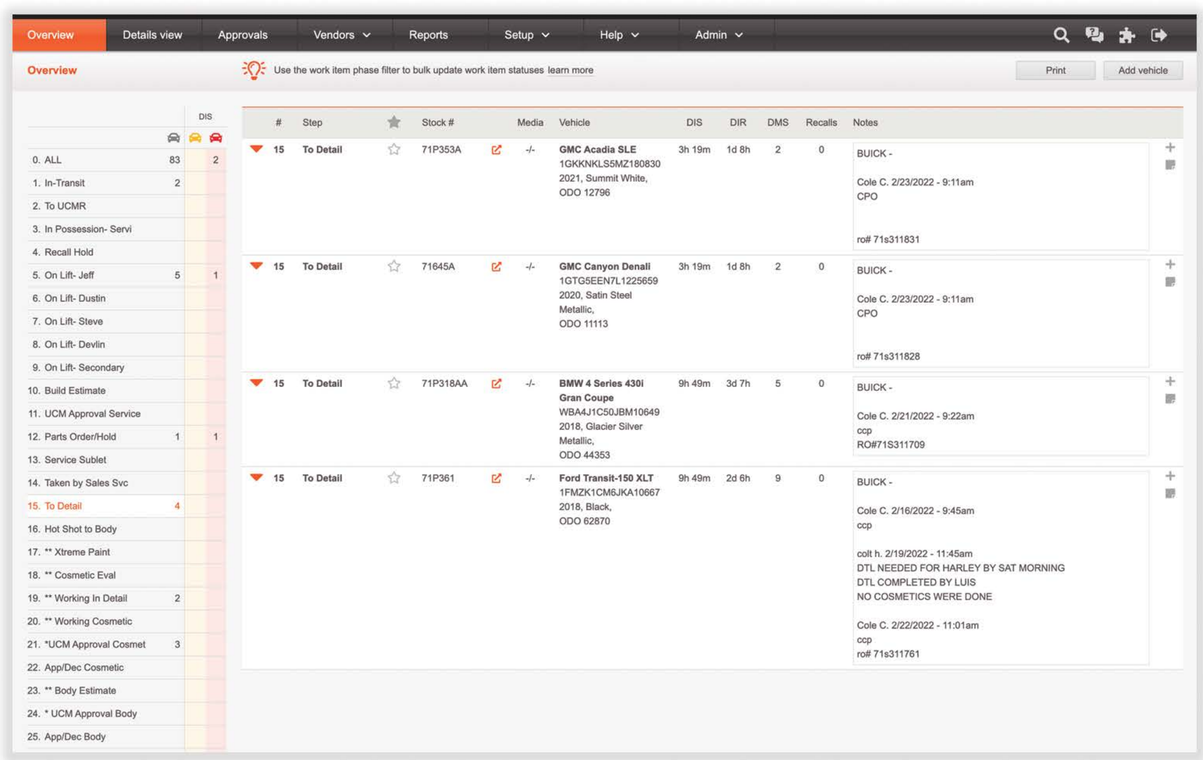
RECONDITIONG CENTER BRIDGING

RECON CENTER





BRIDGING TO STORE



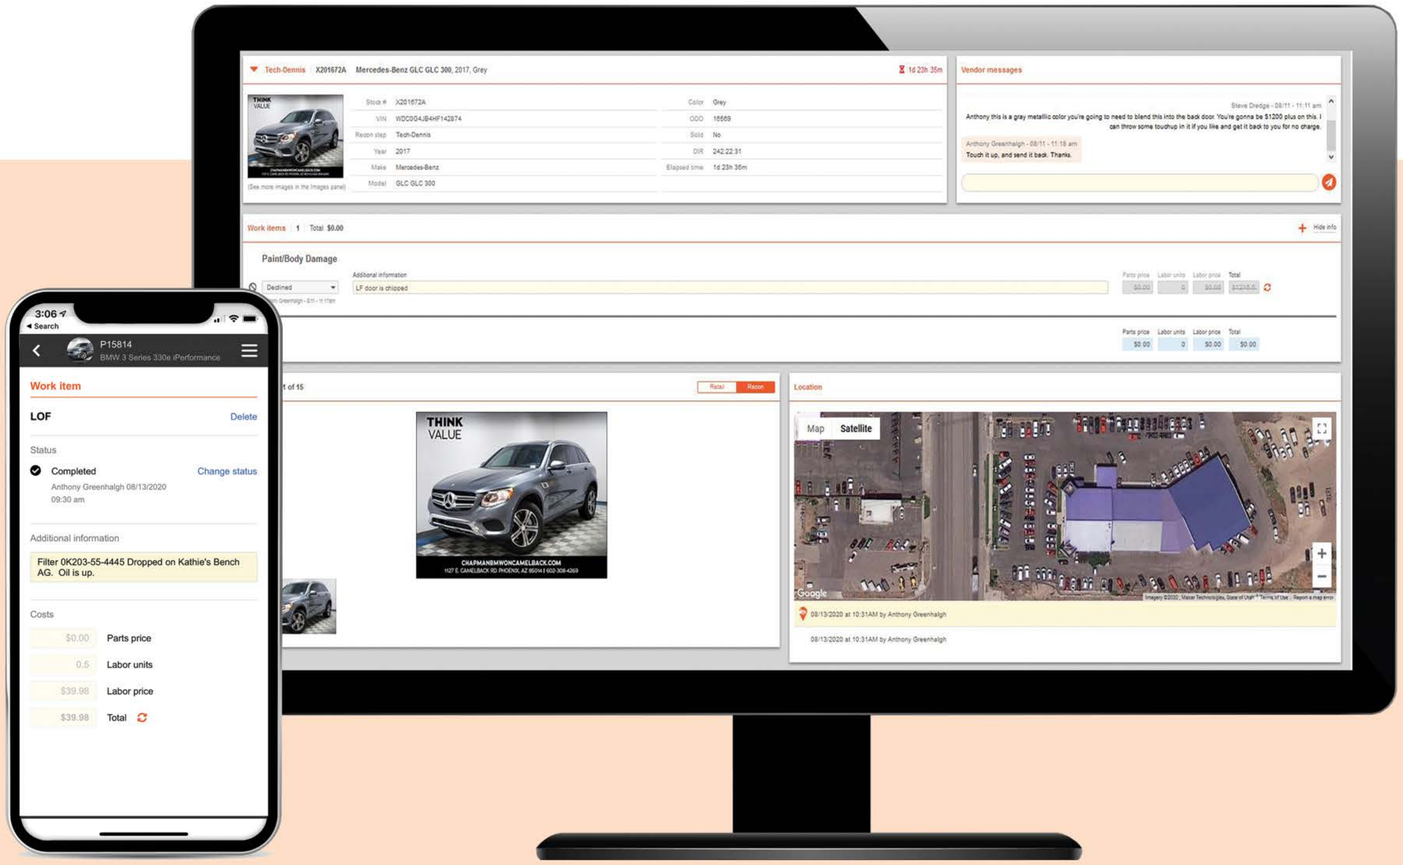
BRIDGING FROM STORE

RECONDITIONG CENTER BRIDGING

Dealer groups are everywhere, and at Rapid Recon we recognize the need for fluidity when reconditioning vehicles. With Rapid Recon bridging, dealers can easily maintain control and provide accountability at each store level. Rapid Recon seamlessly integrates all the groups stores with a centralized reconditioning felicity. The store level only sees their vehicles, while the reconditioning center simultaneously mirrors features, and manages vehicles from all stores in one centralized system.

- Seamless integration between stores
- Automated direct communication between the reconditioning facility and each store's unique decision makers
- Mirrored workflow at each unique store level to monitor the progress of their vehicles at the reconditioning facility
- Group level vendor management where vendors manage all the groups vehicles in one system

VENDOR ADVANTAGE



CHALLENGE

How do you maintain total control and visibility of the reconditioning steps within your dealership when outside vendors are an integral part of the processes?

SOLUTION

Vendor Advantage is the industry's most advanced dealer/vendor communication tool. The application was designed to keep vendor work moving and the dealer in the know, with minimal effort for both parties. Vendor Advantage allows both the dealer and the vendor to work effectively and quickly to accomplish mutual goals.

VENDOR ADVANTAGE

Complementary service for Rapid Recon customers

Available on mobile or desktop

Mutually beneficial product for vendors and dealers and allows vendors to still maintain their own internal processes

Each vehicle has its own chat thread

Assign and alert vendors to work with detailed vehicle information without ever leaving the RapidRecon platform. Vendor Advantage creates an alert as soon as the Rapid Recon customer creates the work item

Great for use with external paintless dent repair, glass repair, tire repair, detailing, etc.

Shows information ONLY relevant to the vendor and the vehicles they are assigned.

Location of the vehicle, images, vehicle condition photos, work items the vendor is being asked to repair, does it need an estimate, how long has it been in recon

Everything is time and date stamped to create more accountability from your vendors

DIGITAL VEHICLE PORTFOLIO (DVP)

POWERED BY iPacket®

CHALLENGE

HOW DO YOU SHOW A CUSTOMER THE ADDED VALUE OF YOUR RECONDITIONING EFFORTS? HOW DO YOU EMPOWER DIGITAL CUSTOMERS AND BUILD TRUST WITH A TRANSPARENT BUYING EXPERIENCE FROM DAY ONE?

SOLUTION

THE DIGITAL VEHICLE PORTFOLIO (DVP) POWERED BY IPACKET, PROVIDES EVERYTHING DISCERNING SHOPPERS WANT TO KNOW ABOUT A VEHICLE, INCLUDING WHAT IS INCLUDED IN RECONDITIONING, WINDOW STICKERS AND MORE. PROVIDE BUYERS WITH DETAILED INFORMATION ON YOUR PREOWNED INVENTORY RIGHT ON YOUR OWN WEBSITE.

PARTNERING TOGETHER TO BRING YOU THE TOOLS YOU NEED FROM THE BUSINESSES YOU TRUST.

RAPIDRECON™ iPacket®

DIGITAL VEHICLE PORTFOLIO

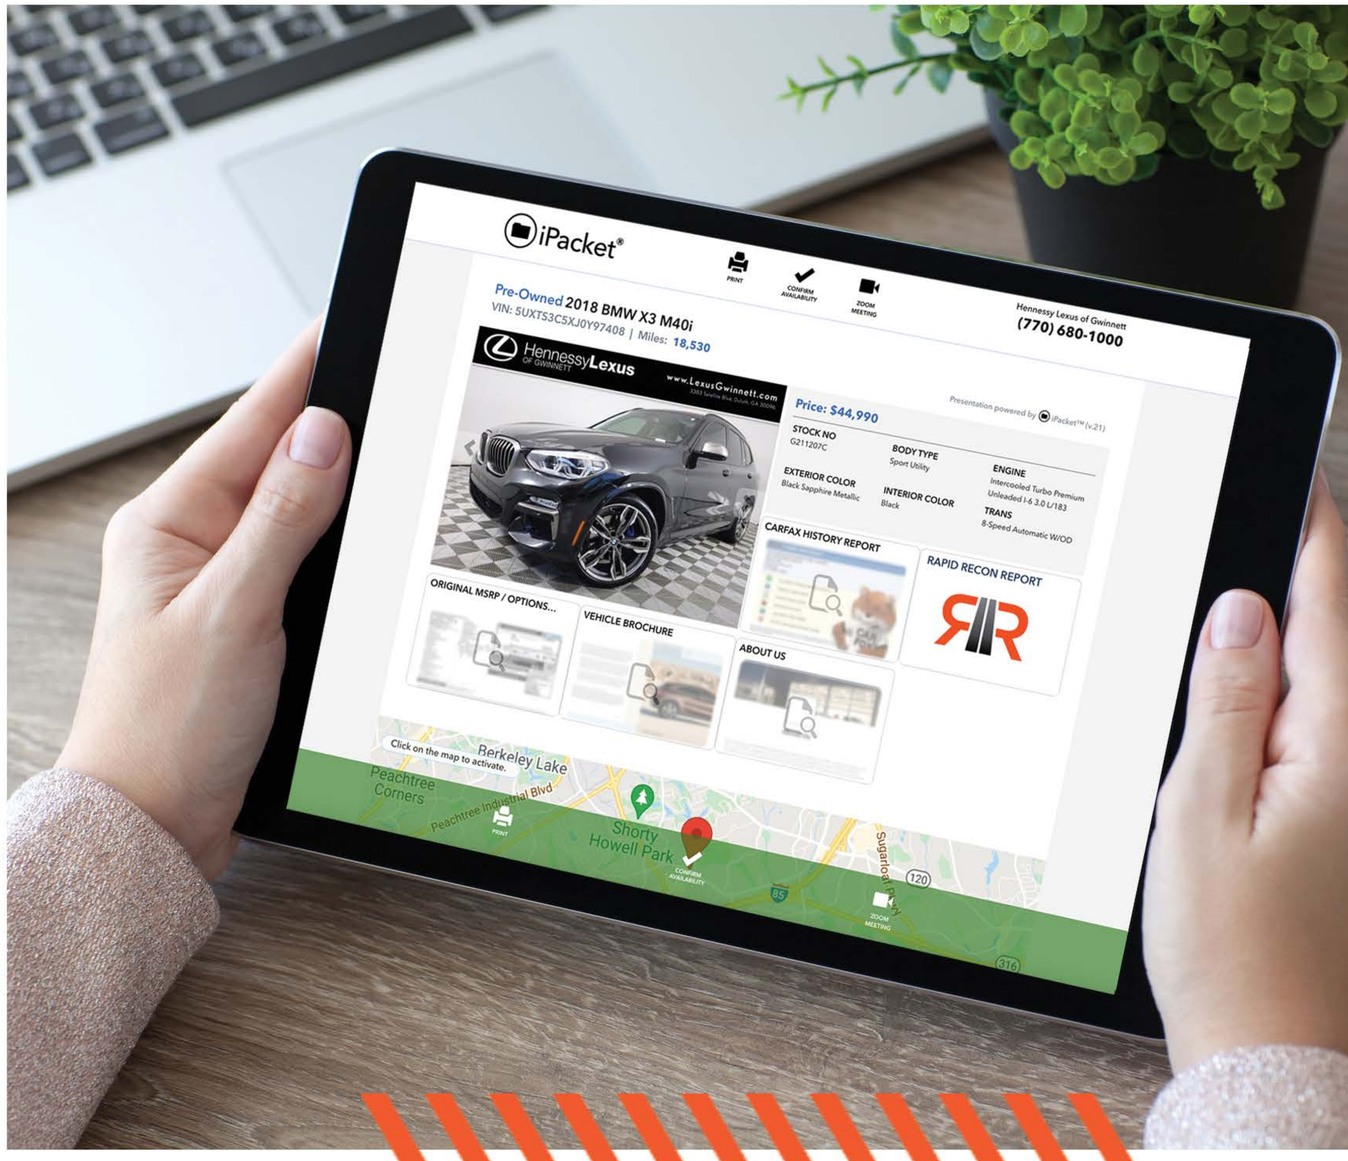
Learn the full history of the car in one place

Information right from Rapid Recon to show all of the hard work a dealer put into reconditioning a vehicle

Includes Vehicle History Report, Rapid Recon Report, Recon Photos, Original MSRP Options and Info, Window Sticker – all seamlessly integrated into a dealers website.

Accessible on desktop, tablet or mobile

Generating and presenting Digital Vehicle Portfolios is 100% automated, requiring no scanning, no uploading and no printing.



RECON EDGE

CHALLENGE

Do you know where your reconditioning bottlenecks are? Do you desire to lower your time to line and increase your speed to sale to better meet consumer demand and enjoy better gross profits? Are you wanting to know where your difficulties lie within your process and how to rectify them?

SOLUTION

Recon Edge is a unique one-on-one master-level performance efficiency troubleshooting service from Rapid Recon. Recon Edge diagnoses and solves shop time inefficiences, workflow maladies, personnel performance challenges and untapped profitability hiding in plain sight.

MEET OUR PERFORMANCE MANAGERS

DAN ANTON

BRADLEY ORR

DUSTIN JONES

JENNIFER MARSZALEK

RECON EDGE

WHAT IS RECON EDGE?
Recon Edge is an onsite, tailored evaluation and improvement of your reconditiong processes, led by our top-tier Performance Management Team, available exclusively for Rapid Recon customers.

WHAT IS INCLUDED?
- Pre-trip prep call with management
- In-depth assessment of your reconditioining process
- 2+ days of dedicated on-site attention
- One-on-one time spent coaching all involved staff
- Industry best-practice evaluation and advisement
- Efficiency improvement strategy
- In-person visit summary, covering accomplished and future goals
- Continued monitoring of the use of Rapid Recon tools and features
- Future Recon Reviews to keep you on track

RECON CONNECT

CHALLENGE

How can I immediately know the status of a vehicle within Rapid Recon without having to reference the software directly?

SOLUTION

The Recon Connect Browser Extension allows you to interact with Rapid Recon on the platforms you already use everyday. These include but are not limited to inventory management systems, dealer website and more!

RECON CONNECT

Recon Connect is a complementary browser extension for all Rapid Recon customers. The extension is compatible with both Google Chrome and Microsoft Edge.

How It Works:

1) Visit the Chrome Extension Store to located and install the extension in your browser

2) Click on the extension icon and make sure that you are logged into Rapid Recon

3) When on websites that have VINs that are active in your Rapid Recon system, the VIN will turn orange on your screen

4) If the VIN is orange, you are able to hover over the VIN with your mouse and a small pop-up window will appear with a snapshot of the Rapid Recon information about the vehicle A

5) For more detailed information click on the VIN and a slider will appear from the right side of the screen with additional details B

6) Clicking on the orange 'View Vehicle Details' button at the bottom of the slider will take you to that vehicle's profile within the Rapid Recon software C

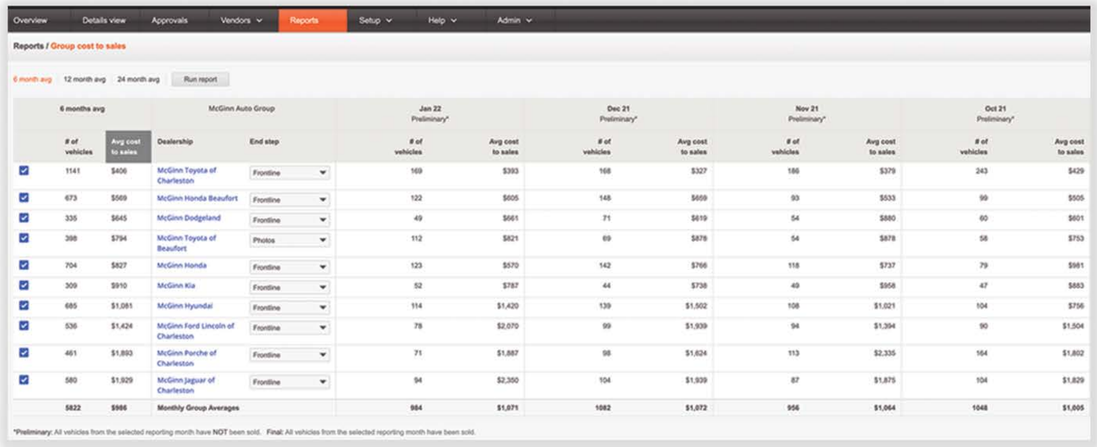
REPORTING

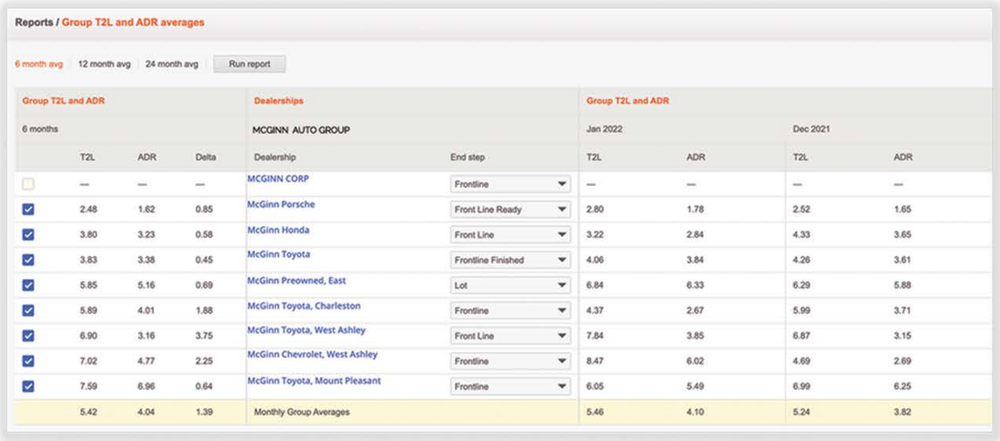
GROUP-LEVEL REPORTING

We offer group-level reporting for dealer groups. Reporting at the group level includes:

GROUP COST TO SALES

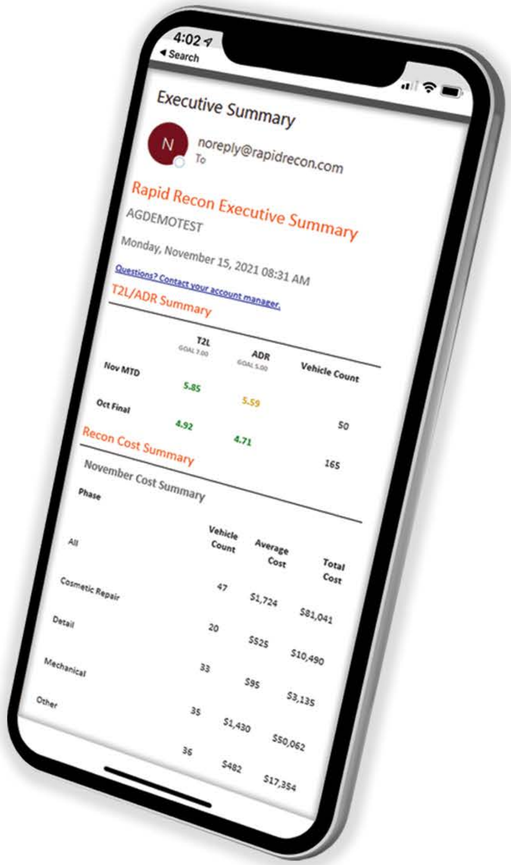
Understand the month over month reconditioning spend by vehicle and see it store over store.



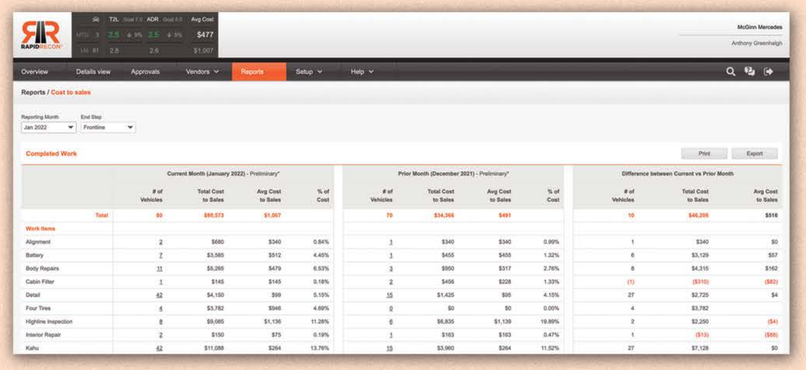


GROUP T2L and ADR

T2L and average days in reconditioning are vital measurements. See a month-by-month and store-over-store comparison of your corporations performance.

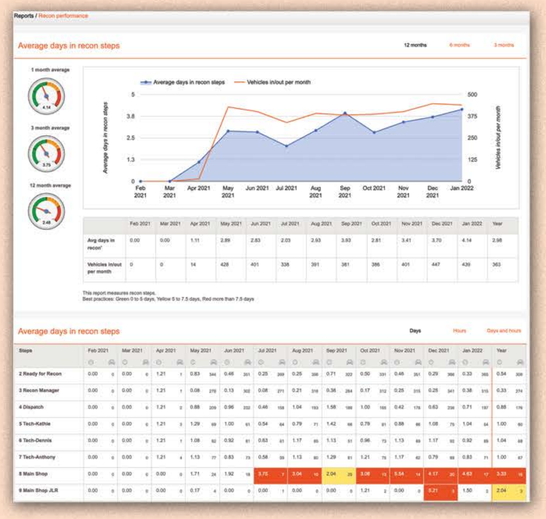


EXECUTIVE SUMMARY EMAIL



COST TO SALES

Understand what you're spending, what's getting approved, and what's getting declined.



PERFORMANCE BY MONTH

A heat sheet showing average days breakdown by step by vehicle. Color triggers highlight areas of opportunity.

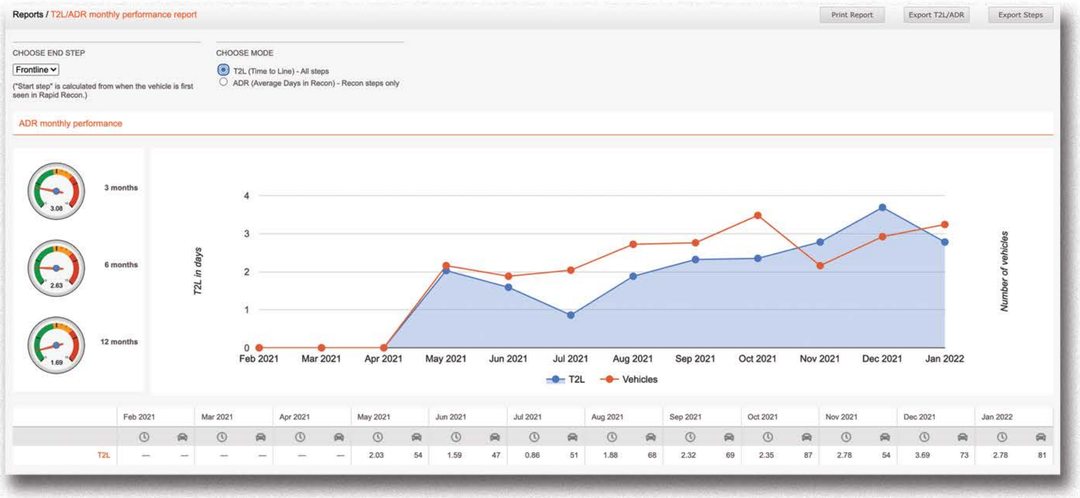
WEEKLY PRODUCTION BY STEP

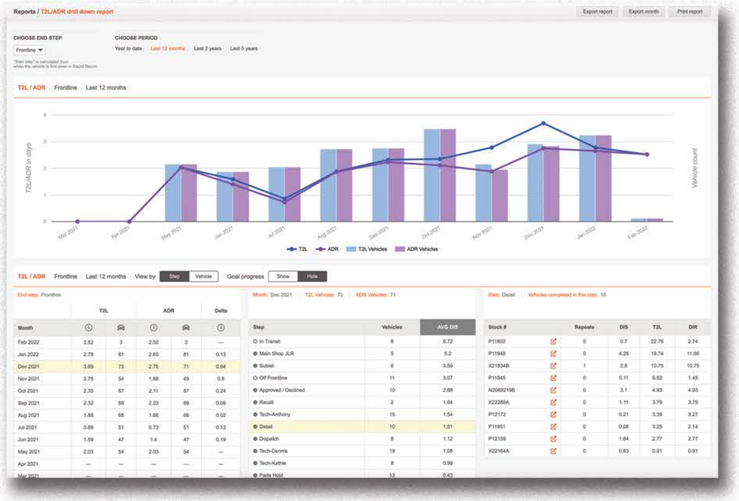
As red flags show themselves in your processes, the weekly production by step report will measure and show by week if your changes in processes were effective.

REPORTING



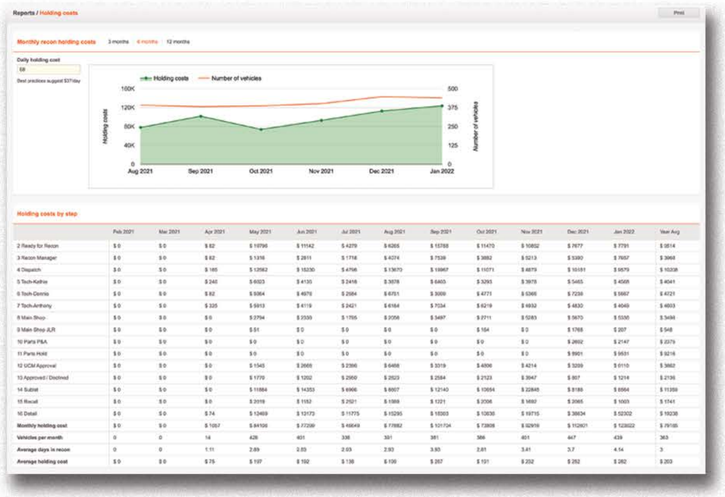
T2L/ADR PERFORMANCE BY MONTH

View a month-by-month detail on how each step is performing, color tirggers instantly highlight areas of opportunity and areas of improvement.



T2L/ADR DRILLDOWN

Time to line, and average days in recon are vital measurements in your reconditioning processes. Know how long you're taking and identify specific areas that are thriving and others that have opportunities.



HOLDING COSTS BY MONTH

View what it's costing you to hold your vehicles in inventory during the reconditioning process. The holding cost by month report is an excellent scorecard that shares the "why" when tackling bottlenecks that add non-value-added time to your reconditioning processes.

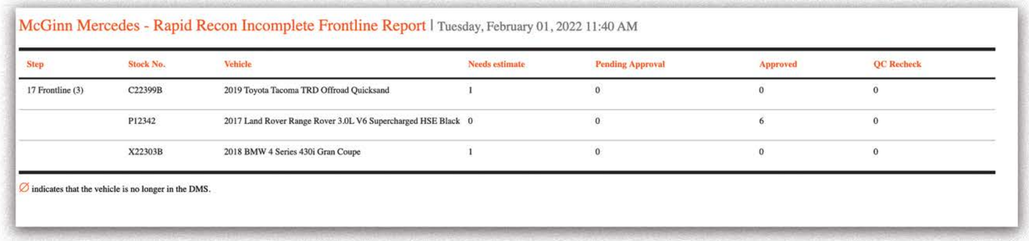
STANDARD REPORT

A complete report of all of your vehicles active in the reconditioning process, complete with notes, and sorted by step.



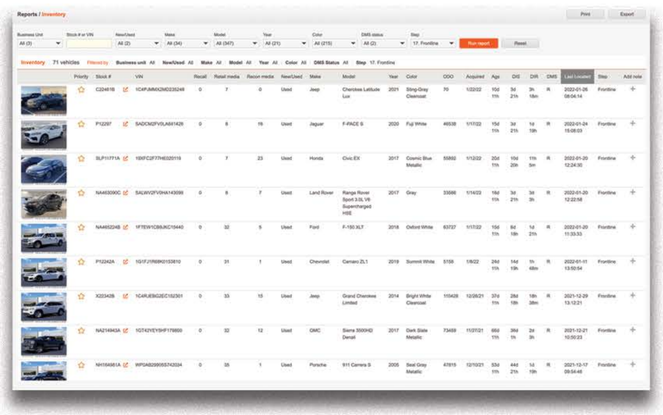
McGinn Mercedes - Rapid Recon Incomplete Frontline Report | Tuesday, February 01, 2022 11:40 AM

Step	Stock No.	Vehicle	Needs estimate	Pending Approval	Approved	QC Recheck
17 Frontline (3)	C22399B	2019 Toyota Tacoma TRD Offroad Quicksand	1	0	0	0
	P12342	2017 Land Rover Range Rover 3.0L V6 Supercharged HSE Black	0	0	6	0
	X22303B	2018 BMW 4 Series 430i Gran Coupe	1	0	0	0

∅ indicates that the vehicle is no longer in the DMS.

INCOMPLETE FRONTLINE

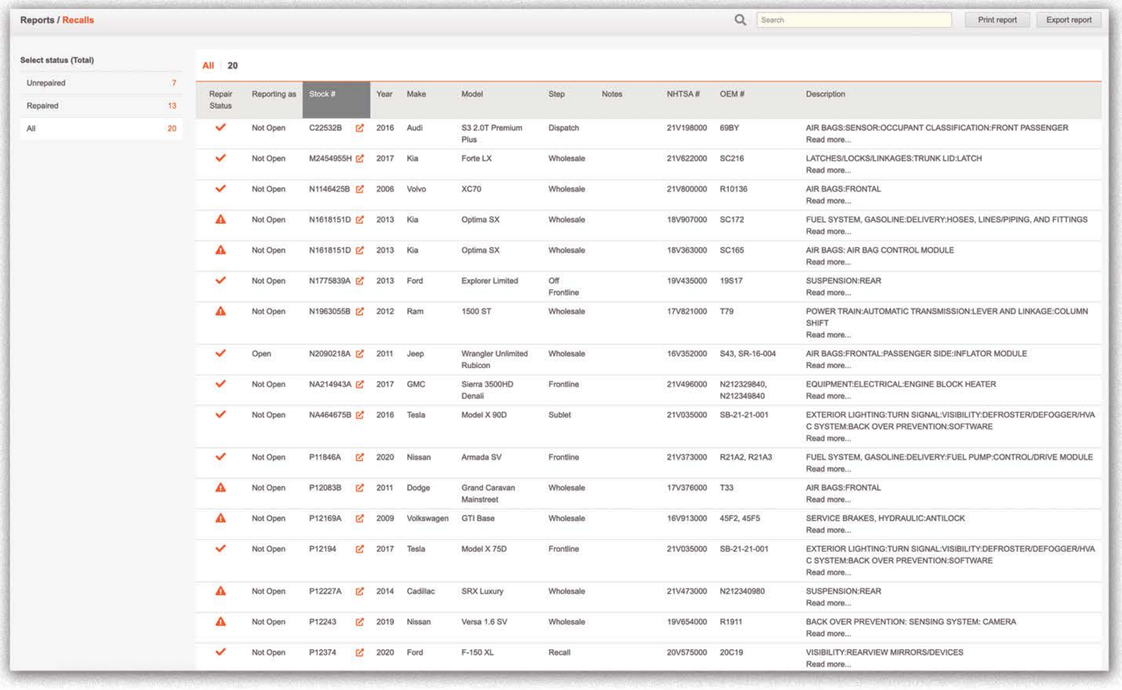
See a condensed list of vehicles on the frontline that still have work to be completed.



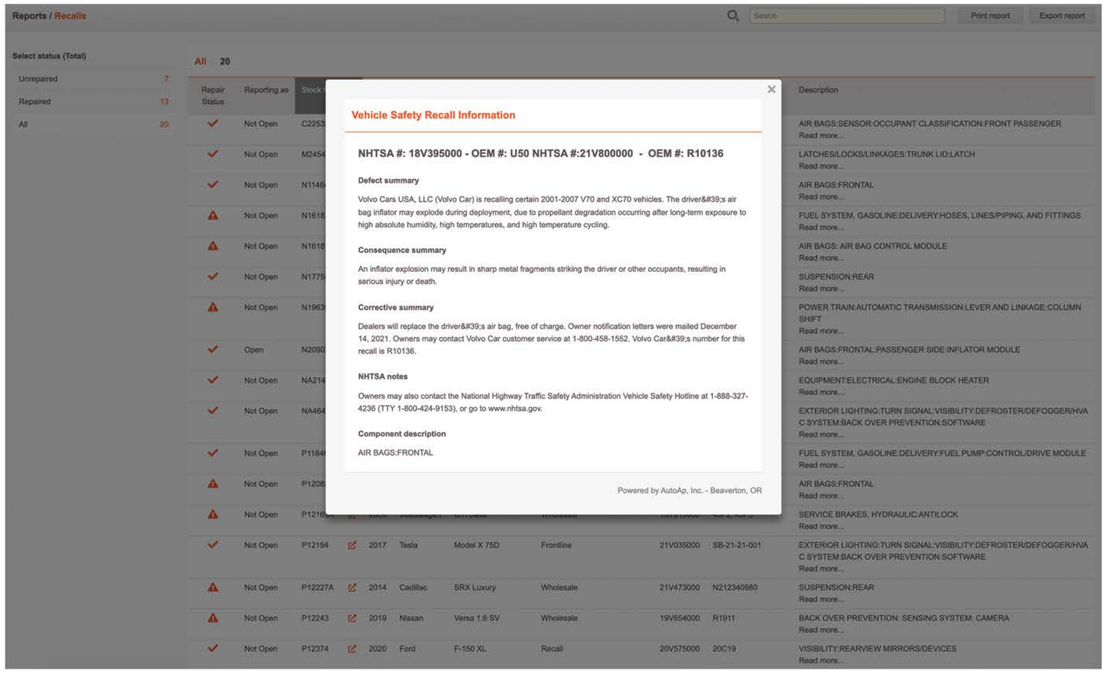
INVENTORY REPORT

Use Rapid Recon's scan feature to inventory your vehicles. This report shows vehicles scanned, and any missed vehicle appears as an exception.

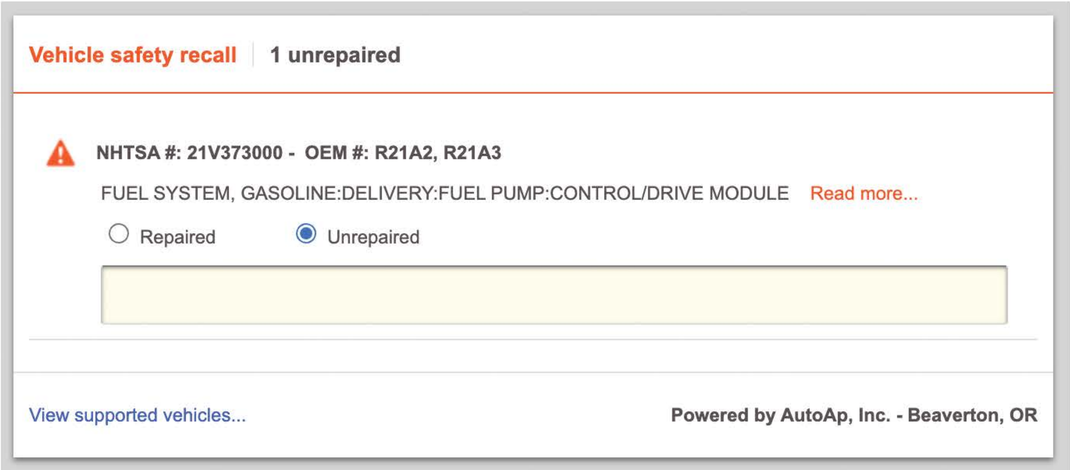
RECALLS



RECALL REPORT
Show vehicles with open safety recalls. Confirm each recall has been addressed.



RECALL INFORMATION
Click on the line with an open recall and a pop up window will appear showing you the details of the open recall.



If the vehicle recall has been unrepaired, use the fill-in blank to provide an explanation such as "recall parts on backorder," etc.

MOBILE

We understand that in the auto industry you can't always be in front of your computer. Our mobile app allows you to access Rapid Recon no matter where you are.
